

STATE OF MAINE DEPARTMENT OF TRANSPORTATION 16 STATE HOUSE STATION AUGUSTA, MAINE 04333-0016

DAVID A. COLE COMMISSIONER

July 26, 2004 Subject: Lubec-Campobello Pin No. 006893.00 Project No. BH-STP-6893(00)X **Bid Amendment No. 3**

Dear Sir/Ms.:

The Department has received the following Requests for Information:

Question 1: There is not enough vertical clearance to set the proposed steel form over the existing steel column.

Response: It is the Departments opinion that there is enough clearance; there is approximately 63.5 feet of vertical clearance from the superstructure to mean low water.

Question 2: What is the clearance under the bridge at high tide?

Response: The vertical clearance under the bridge at mean high tide is approximately 46 feet.

Question 3: What is the maximum velocity of the current based on tidal action?

Response: 4 to 8 knots maximum.

Consider this information prior to submitting your bid on July 28, 2004.

Sincerely

Scott Bickford

Contracts & Specifications Engineer
